

Solar Equity Platform

WHO WE ARE

The Solar Equity Platform is an online platform that connects customers who have excess solar electricity credits to low-income customers looking to receive those credits.

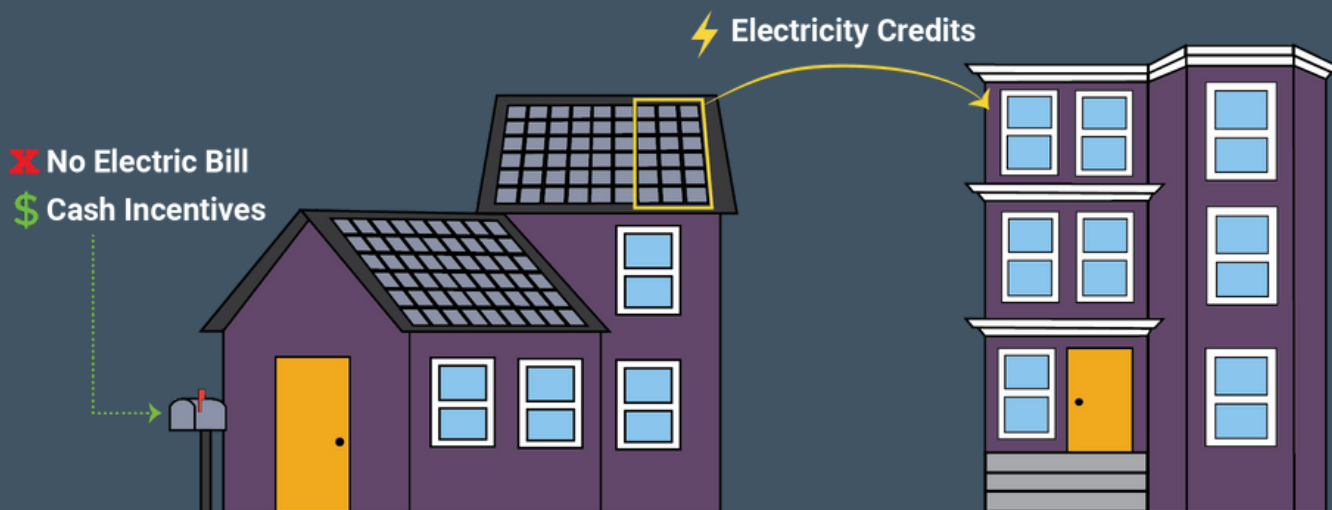

THE BENEFITS

- Qualified low-income customers (Clean Energy Consumers) receive electricity credits at no cost, lowering their energy bills by as much as 25% in exchange for participating in community programs
- Clean energy option for residents who face complex infrastructure and financial barriers to going solar
- No equipment or expensive installation
